# EAST-CENTRAL IOWA REC REBATES

Contact the cooperative for the complete list of rebates and qualifications

## HEATING, COOLING & VENTILATION

Heating, ventilation, and air conditioning (HVAC) systems account for about 40% of the electricity used in commercial buildings.

Heating and Cooling Equipment Rebates per ton of system cooling capacity			
Type of System	1st 40 Tons	Remaining	Maximum
Geothermal Closed Loop System	\$400	\$175	\$40,000
Geothermal Open Loop System	\$300	\$125	\$20,000
Geothermal Water Source System	\$200	\$75	\$15,000
Geothermal Unit Only with Existing Loop	\$75	\$75	\$10,000
Air-Source Heat Pump System	\$250	\$50	\$15,000
Central Air Conditioning System	\$25	\$25	\$5,000
Air Cooled Chiller	\$20	\$20	\$5,000 Total Max.
Water Cooled Chiller	\$30	\$30	

Contact your cooperative for equipment requirement standards.

Chiller Pipe Insulation \$2/linear ft.

Heat Recovery Ventilators \$180/ton  
(cooling tons recovered from exhaust air)

Heat recovery ventilation systems improve the efficiency of heating and cooling systems and improve indoor air quality.

## ELECTRIC VEHICLE PROGRAM

Rebates are available for commercial electric vehicle chargers. Up to five of each.

- Level II Chargers \$1,000/each

For more information, contact the cooperative.

## ELECTRIC FORKLIFT CHARGERS

Rebates are available for forklift chargers when converting from gas type units, expanding fleet, or initial purchase/lease. Electric forklifts have a number of benefits related to maintenance, health and safety.

- Forklift Chargers Up to \$1,000/each

For more information, contact ECI REC.
