Are Your Account Phone Number(s) Current?

Please fill out this form if your contact information has changed.

Did you know our consumer software links your account information with your primary and secondary phone numbers? If you call to report an outage or a concern, our personnel can help you more quickly if your numbers in these two fields are current. In today's mobile world, you may want to consider updating your primary and secondary phone numbers, especially if you have:

- ✓ Disconnected your landline, or you do not use it as a primary point of contact
- ✓ Changed your cell phone number or provider

IN 2025, MAKE A RESOLUTION TO TAKE A LOAD OFF THE PEAK

Frigid winter temperatures increase electricity usage for everyone. However, there are ways you can help ECI REC (and your fellow members) save money!

- 1. Keep electricity usage to a minimum between 4:00 p.m. and 9:00 p.m.** ECI REC pays the most for electricity used in these peak hours. If you cut back during this window, everyone saves.
- 2. Coordinate the number of appliances you operate at once.** Staggering the use of appliances reduces the demand on our system, which means lower costs.

Results

Home A staggered the use of their appliances during peak hours, creating less of a demand on the Cooperative's system.

Home B used all three appliances at once during peak hours, creating higher demand, which could increase costs.
