

Heat Plus Program

From October 1 to May 31, East-Central Iowa REC offers a special **Heat Plus** heating rate that can **save qualifying members up to 50%** on winter heating bills.

To qualify for the **Heat Plus** rate, your heating system must:

- Be electric and metered separately.
- Use the primary electric heating source first, with the backup system operating only when the primary system is unable to satisfy the indoor thermostat setting.
- Use the primary electric system to heat an area of 400 square feet or more.
- Use an electric water heater to provide 100% of the domestic water heating for the home (except for the energy supplied from an electric heat pump desuperheater).

Call to see if your home, office, business, or shop qualifies for these savings.

Did you know ECI REC offers rebates on:

- Geothermal & Air Source Heat Pumps
- Electric Water Heaters
- ENERGY STAR® Appliances
- Weatherization
- *And much more*
